

Rimini Data

StarWhite / Space Gray / Carbon

The MOTION system allows the umbrella to retract close to the pole without having to move the furniture beneath it. Combining the MOTION system with the ACTION system allows the umbrella to open and close with one single movement. The hydraulic gas strut renders the operation very smooth and light. Aluminium frame available in anodized version SpaceGray or Carbon (anthracite) coated or in the new version StarWhite, matt white. Components and stainless steel hardware. Accessories Nylon ABS.

3.5m x 3.5m Square
