

## Jumbrella Key Features

- ❖ Maintenance-free servo mechanism for trouble-free opening and closing
- ❖ Size range 3m x 3m Square to 7m Octagonal
- ❖ Pole diameter 80mm
- ❖ No loose functional parts like ropes, cranks or connectors
- ❖ All spokes reinforced with steel galvanised cores, as standard
- ❖ A removable hand crank with a bevel gear opens and closes the canopy
- ❖ Telescopic system, allowing closure over tables
- ❖ 2 lockable handles with spring buckles for optimal fabric tension
- ❖ Standard frame in traffic white (RAL 9016) or in anthracite grey (RAL 7016)
- ❖ European acrylic fabrics are used for the membranes. Also optional PVC
- ❖ Integrated electrics
- ❖ Standard wiring 5 core – 2.5mm, single phase
- ❖ Infra-red heaters options, allowing closure of the canopy without removing the heaters. These are remote controlled and have an auto-cut off feature.
- ❖ Optional LED lighting
- ❖ Optional longer/shorter pole
- ❖ Optional additional cable for TV monitors, video etc.
