

Jumbrella Key Features

- ❖ A high strength commercial parasol, designed for heavy use
- ❖ Maintenance-free servo mechanism for trouble-free opening and closing
- ❖ Size range 3m Square to 7m
- ❖ Mast diameter 80mm
- ❖ No loose functional parts like ropes, cranks or connectors
- ❖ Spokes are supported by a double strut system
- ❖ Telescopic system, allowing closure over tables
- ❖ A clever lever system is used to open and close the canopy which ensures for optimal fabric tension
- ❖ Standard frame in traffic white (RAL 9016) or in anthracite grey (RAL 7016)
- ❖ A high strength bespoke purpose made hi-weave polyester fabric is used for the membrane
- ❖ Fully integrated electrics
- ❖ Standard wiring 3 core – 4mm, single phase
- ❖ Infra-red heaters options, allowing closure of the canopy without removing the heaters. These are remote controlled and have an auto-cut off feature
- ❖ Optional LED lighting (remote controlled)
- ❖ Optional longer/shorter mast
- ❖ Optional additional cable for TV monitors, video etc
