

ANTIBES

Marine-Grade Cantilever Parasol

An English-made cantilever parasol combining marine-grade stainless steel, precision engineering and adaptable shade positioning.

MADE IN ENGLAND

Precision construction

360° ROTATION

Flexible shade positioning

2-4 METRES

Broad canopy range

MARINE CONSTRUCTION

- Manufactured in England to exacting standards using precision-engineered components
- Crafted from marine-grade stainless steel for strength, durability and corrosion resistance
- Satin-finished stainless-steel mast, with an optional mirror-polished finish
- Cantilever configuration keeps the central shaded area clear of an obstructive mast

SHADE & CONFIGURATION

- Rotates through 360 degrees, allowing the canopy position to be adjusted throughout the day
- Available in square, rectangular and octagonal canopy shapes
- Broad selection of sizes from 2 to 4 metres to suit different terrace layouts
- Choice of single-vent or distinctive multi-air-vent canopy designs

FABRIC & OPERATION

- Premium European solution-dyed acrylic fabric provides excellent UV protection
- Approximately 30 fabric colours are available to complement different architectural settings
- Removable crank handle provides smooth and straightforward canopy operation
- Double-canopy configuration available for covering larger outdoor dining and relaxation areas

EXPERT PROJECT SUPPORT

Morton Parasols can advise on specification, configuration, installation and suitable optional equipment for the intended location.
