TECHNICAL DATA

Material	100% polyacrylic, solution-dyed
Finish	Teflon treatment against water, staining and mould
Lightfastness	7-8 - DIN EN ISO 105-B02
Weight	290 g/m ²
Abrasion resistance	25,000 - DIN EN ISO 12947-2
Fabric width	150/160 cm

CARE & PERFORMANCE

Excellent colour and light resistance; heavy-duty, decay-resistant and easy-care. Pattern designs have no repeat and are randomly striped.

PLEASE NOTE

Woven fabrics cannot guarantee complete impermeability in continuous or heavy rain. Stress whitening can appear at creases, particularly on dark colours; this does not impair fabric quality and generally becomes less apparent with use.
