

DECENTRATO

Space-Saving Cantilever Parasol

A purpose-designed offset parasol for narrow terraces and restricted spaces where efficient furniture positioning is essential.

NARROW TERRACES

Space-efficient design

360° ROTATION

Free-standing option

WALL OR RAIL

Flexible fixing

SPACE & POSITIONING

- Purpose-designed commercial parasol for narrow terraces and outdoor spaces with limited depth
- Offset mast keeps the covered area clear and allows furniture to be positioned more efficiently
- Retractable side arm provides generous shade without occupying valuable terrace space
- Straightforward operating system makes the canopy quick and easy to open or close

OPERATION & HARDWARE

- Nautical pulley manufactured from marine-grade stainless steel for smooth, dependable operation
- Jam-cleat mechanism holds the operating cord securely in position
- Stainless-steel hardware is used throughout for strength and weather resistance
- May be fixed directly to a wall or handrail where floor space is restricted

FABRIC & CUSTOMISATION

- Free-standing installations can rotate through 360 degrees for flexible shade positioning
- Premium European solution-dyed acrylic fabric provides excellent UV protection
- Mast and frame are available in a choice of three colours
- Optional valance, bespoke printing and branding allow the canopy to be tailored to the location
