Air-Purifying Parasol

An award-winning hospitality parasol combining PURETi air-purifying technology, recyclable construction and exceptional UV protection.

UPF 80

Exceptional UV protection

PURETi COATING

Self-cleaning surface

THREE AWARDS

Recognised design

AWARD-WINNING INNOVATION

- Award-winning parasol designed specifically for hotels, resorts and professional hospitality environments
- Recipient of the iF Design Award, Red Dot Award and Nestlé Sustainability Award
- Innovative PURETi-coated canopy actively helps break down airborne pollution, dirt and unpleasant odours
- Photocatalytic technology uses natural or artificial light to create a self-cleaning, air-purifying surface

FABRIC & SUSTAINABILITY

- Fully recyclable construction supports more environmentally responsible hospitality projects
- Durable 190gsm Olefin canopy fabric is water-repellent and resistant to stains, fading and mildew
- UPF 80-rated fabric provides exceptional protection against harmful ultraviolet radiation
- High-grade, corrosion-resistant materials provide reliable long-term outdoor performance

OPERATION & CHOICE

- Easy push-up opening system with a secure open-lock lever handle
- Colour-coordinated wheeled base enables the parasol to be repositioned easily around the terrace
- Available in 2m, 2.5m and 3m square canopy sizes
- Offered in white, taupe or anthracite, with a matching lacquered frame and mobile base

EXPERT PROJECT SUPPORT

Morton Parasols can advise on specification, configuration, installation and suitable optional equipment for the intended location.
