

MALAGA

Easy-Up Cantilever Parasol

A patented side-post parasol combining one-handed operation, a corner-positioned mast and scalable configurations of up to four canopies.

ONE-MOVE SYSTEM

Gas-spring assisted

UP TO 4 CANOPIES

Scalable terrace coverage

100mm MAST

Substantial square profile

OPENING & POSITIONING

- ‘Easy-up’ side-post parasol operated with one hand through the patented ‘one-move system’, assisted by a stainless-steel gas spring
- The mast is uniquely positioned at the corner of the square canopy on the 2.5m and 3m models
- Sizes: 2.5m and 3.0m square; 3.5m and 4.2m octagonal
- Double, triple and quadruple-canopy configurations are available
- Substantial 100mm square mast, powder-coated in a mid-to-dark grey finish

STRUCTURE & CONFIGURATION

- The mast can be positioned adjacent to a wall or installed with a wall-mounted fixing
- The canopy retracts to the side, leaving the previously shaded area completely clear
- Stainless-steel fixings and hardware are used throughout
- The multi-mast system can accommodate up to four canopies
- Marine-grade stainless-steel ground anchor

HEATING, LIGHTING & OPTIONS

- Optional 1.5kW infra-red heater
- Optional LED lighting with remote control
- Optional mobile wheeled pedestal base
- Internal cabling for heating and lighting
- Optional zipped rain gutter for connecting two canopies
