

MONTE CARLO

Cantilever Parasol

A highly adjustable side-post parasol created for precise shade control on terraces and poolside settings.

3-AXIS CONTROL

Rotate, tilt and adjust

360° ROTATION

Flexible shade positioning

SIDE RETRACTING

Clear space when closed

CONTROL & MOVEMENT

- A sleek ultra-modern side post (cantilever) parasol ideal for any application, particularly south / south-west facing terraces and pool-side environments
- The canopy is manoeuvred through 3-axis:
- Optional height adjustment, lever operated – ideal for sun beds
- The canopy can rotate through 360°, lever operated
- Canopy can tilt up to almost 90°, lever operated

STRUCTURE & OPERATION

- The canopy retracts to the side upon closing the parasol
- High mobility, with a choice of anchors, including wheeled bases
- Mast diameter is 55mm
- Constructed from anodized extruded aluminium alloy
- All fittings are made from stainless steel

FABRIC & INSTALLATION

- Spokes are made from spring steel, double powder coated in silver-grey
- Canopy is easily operated, opens and closes via a removable crank handle
- European solution-dyed acrylics are employed for the membranes, with a choice of around 40 colours
- A protection cover bag is included

EXPERT PROJECT SUPPORT

Morton Parasols can advise on specification, configuration, installation and suitable optional equipment for the intended location.
