

PIAZZA

Self-Opening Parasol

A power-assisted commercial parasol offering exceptionally simple operation without ropes, pulleys, pins or crank handles.

SELF-OPENING

Power-assisted mechanism

2-4.5 METRES

Extensive canopy range

TWO FRAME OPTIONS

Bamboo or aluminium

OPENING SYSTEM

- Unique power-assisted, self-opening canopy designed for exceptionally simple operation
- Opens without ropes, pulleys, securing pins, crank handles or operating levers
- Hidden lifting mechanism takes over the opening process after the arm is raised
- Polished cast-aluminium hub locks automatically when the canopy is fully open

COMMERCIAL CONSTRUCTION

- Available with either a natural bamboo or contemporary aluminium frame
- Heavy-duty construction suitable for restaurants, cafés, bistros and hotels
- Extensive choice of canopy sizes ranging from 2 to 4.5 metres
- High-grade, corrosion-resistant materials provide dependable long-term outdoor performance

FABRIC & INSTALLATION

- Stainless-steel fittings are used throughout for additional strength and weather resistance
- Robust strut-to-spoke joints reinforce the canopy framework
- Premium European solution-dyed acrylic fabric provides excellent UV protection
- Available with permanent or mobile installation options, plus bespoke printing and branding
