

RIMINI

Cantilever Parasol

A high-strength offset parasol offering clear, adaptable shade across substantial hospitality and leisure terraces.

360° ROTATION

Single-canopy model

1, 2 OR 4 CANOPIES

Scalable coverage

OFFSET MAST

Unobstructed seating area

SHADE & MOVEMENT

- High-strength cantilever parasol designed to provide unobstructed shade over large tables and seating arrangements
- Offset mast keeps the principal covered area clear for furniture and guest movement
- Gas-spring-assisted mechanism allows the canopy to be opened and closed with minimal effort
- When closed, the canopy retracts towards the mast and clears the previously shaded area

CONFIGURATION & COVERAGE

- Single-canopy model rotates through 360 degrees for flexible shade positioning
- Available in single, duo and quadruple-canopy configurations
- Multi-canopy arrangements provide extensive coverage from a single supporting structure
- Strong oval mast is manufactured from high-grade extruded aluminium

STRUCTURE & FINISH

- Stainless-steel fittings are used throughout for strength and corrosion resistance
- Choice of carbon, titanium or Iroko-effect finishes for the mast and frame
- Premium European solution-dyed acrylic fabric provides excellent UV protection
- Robust construction and versatile configurations suit substantial hospitality and leisure terraces
