

SAN MARINO

Large Cantilever Parasol

A substantial cantilever parasol offering extensive coverage, architectural presence and flexible canopy configurations.

1, 2 OR 4 CANOPIES

Scalable shade coverage

TWO FRAME MATERIALS

Iroko or coated steel

OFFSET SUPPORT

Clear furniture space

SCALE & CONFIGURATION

- Large-scale cantilever parasol designed to provide substantial coverage across spacious outdoor areas
- Heavy-duty construction combines high structural strength with a contemporary appearance
- Offset supporting frame keeps the covered area clear for furniture and guest movement
- Available with single, double or quadruple canopy configurations

FRAME & AESTHETICS

- Multi-canopy versions provide extensive shade from one central supporting structure
- Choice of treated, laminated Iroko hardwood or powder-coated steel framework
- Iroko timber option creates a warm, natural appearance suited to refined hospitality terraces
- Powder-coated steel option provides a more contemporary architectural finish

OPERATION & FABRIC

- Choice of standard single-air-vent or distinctive multi-air-vent canopy designs
- Crank-winch mechanism provides controlled and straightforward canopy operation
- Premium European solution-dyed acrylic fabric offers excellent UV protection
- Choice of canopy and frame configurations allows the parasol to complement different outdoor settings
