

TYPHOON

Windproof Parasol

An exceptionally substantial commercial parasol engineered for expansive and exposed terraces requiring dependable large-scale coverage.

4-8 METRES

Imposing canopy range

HEAVY-DUTY FRAME

High structural stability

WATERPROOF PVC

Fire-retardant membrane

SCALE & WIND PERFORMANCE

- Exceptionally strong windproof parasol engineered for large and exposed commercial locations
- Imposing canopy sizes from 4 to 8 metres provide extensive coverage across substantial terraces
- Available in square, rectangular, octagonal and round canopy configurations
- Heavy-duty frame and exceptionally substantial mast provide high structural stability

ENGINEERING & OPERATION

- Reinforced spokes are manufactured from toughened aluminium for demanding outdoor conditions
- Spring-tensioned spokes keep the canopy taut and help maximise the membrane's working life
- Stainless-steel fittings are used throughout for strength and corrosion resistance
- Telescopic closing system allows the canopy to close above tables and outdoor furniture

MEMBRANE & OPTIONS

- Removable crank handle provides smooth operation and secure storage when not in use
- Premium European waterproof, fire-retardant PVC fabric is easy to clean and available in 14 colours
- Optional infrared heating, LED lighting and energy-saving timer controls extend terrace use
- Available with permanent or free-standing installation, plus linking gutters, side sheets and protective covers
