COLOURS

Parasol Fabric Collection

19 solution-dyed polyester and acrylic colours manufactured in Europe

SOLUTION-DYED OUTDOOR FABRIC

Pigment is added to the molten polymer so colour runs through the fibre, supporting long-term resistance to fading.

FLEXIBLE CONSTRUCTION

Extra stretch helps the canopy tension neatly over the parasol frame.

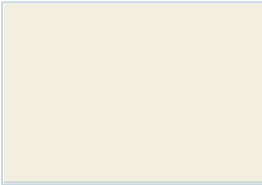

PROTECTIVE FINISH

Fluorocarbon treatment repels water, oil and soil for quick drying and easier cleaning.

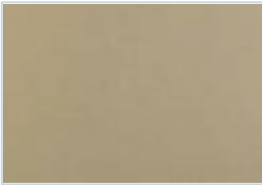

MILDEW PROTECTION

A biocide treatment helps inhibit mildew while remaining non-toxic in normal use.
