UP TO 6 × 6m Imposing canopy range	80–100mm MAST Substantial support	TWIN STRUTS Enhanced wind stability
--	---	---

COMMERCIAL CONSTRUCTION

- Heavy-duty commercial parasol offering substantial strength at a highly competitive price
- Designed for hospitality and leisure terraces where integrated heating or lighting is not required
- Substantial mast diameters of 80mm, increasing to 100mm on the XL models
- Twin support-strut system reinforces the spokes and improves performance in windy conditions

OPERATION & CONFIGURATION

- Available in square and rectangular canopy configurations
- Extensive range of sizes from 3 metres to an imposing 6 × 6 metres
- Integrated push-pull rod provides simple and dependable canopy operation
- Telescopic system enables the parasol to close above standard-height tables

FABRIC & INSTALLATION

- Air vent is included to support airflow through the canopy
- Premium European solution-dyed acrylic fabric provides excellent UV protection
- Choice of eight canopy colours and two frame finishes
- Available with a substantial pedestal base or permanent in-ground anchoring system
