BISTRO 55 PARASOL FABRICS 2026

Fabric Specifications

Materials, performance and finishing information

ACRYLIC — SOLUTION DYED

100% polyacrylic, spun-dyed; 300g/m² ±5%
Water column: 370mm — EN 20 811
Colour fastness: grade ≥7 — EN ISO 105-B02
UV protection: UPF 40–80 — UV Standard 801
Weather-proof and temperature resistant
Texgard protection against oil, grease, mildew, algae and pollution
Öko-Tex Standard 100; suitable for durable screen printing

EDGE BINDING — NOT FOR PVC

If no colour is specified, a binding tape will be chosen to match the cloth.

The binding range coordinates with the acrylic and polyester collections. Please specify the required reference when ordering if a particular contrast or colour match is required.

eserved. Product photography, technical information, dimensional data and written content may not be copied, reproduced or distribu

IMPORTANT COLOUR NOTE

The shades shown are not in accordance with the original ones. On request, a collection of original cloth samples can be supplied.
